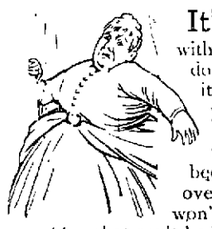
BANGOR DAILY WEEKLY AND [illegible]

BY BOUTELLE BROTHERS. | ENTERED AS SECOND CLASS MAIL MATTER. | BANGOR, MAINE, MONDAY, MAY 22, 1893. | Price Three Cents | VOL. LX.--NO. 119.



It's hard getting through with your washing and cleaning, if you don't use Pearline. And you can use it, with great gain, upon anything that you want made clean. In washing clothes, perhaps you won't believe that Pearline is harmless. It has been proved so to millions of women, over and over again, but perhaps you won't be convinced. Then use it for something that can't be hurt. Use it for washing dishes, for instance, and save work. When you come to know it better and let it wash the clothes, you'll find that it saves the wear and tear as well as the work.

Send it Back — Peddlers and some unscrupulous grocers will tell you "this is as good as" or "the same as Pearline." IT'S FALSE—Pearline is never peddled, and if your grocer sends you something in place of Pearline, be honest—*send it back.* 333 JAMES PYLE, New York.

THE LOST IS FOUND.

Missing Man Turns up All Right.

PORTSMOUTH, N. H., May 20. Daniel Frisbee, of Kittery Point, reported missing, and who was thought to have been drowned, has turned up all right. He left his intoxicated companion asleep in their boat and went to York Beach, where he has been at work.

WASHINGTON NEWS.

Appointment of Fourth Class Postmasters.

WASHINGTON, May 20. The number of fourth class postmasters appointed to-day was 105. Among them were the following for Maine: Geo. Hussey, Nobleboro; K. W. Riggs, Riggsville; Lizzie E. Wass, South Addison.

Distinguished Visitors at the White House.

Princess Eulalie and party were received by the President and Mrs. Cleveland at the White House today. The greetings were very pleasant and had hardly a tinge of formality about them. Mrs. Cleveland and the Infanta chatted briskly in English during a part of the brief visit, while at times the conversation was general. At 11.15 the royal party returned to their hotel. They will remain in Washington until Thursday, when they return to New York.

Appointments by the President.

The President to-day made the following appointments: Owen McGary, Penn., Secretary of the United States Legation at Santiago, Chili.

Michael J. Hendrick, of New Hampshire, Consul of the United States at Belleville, Canada.

RECEIVERS APPOINTED

For the Pancoast Manufacturing Company.

NEW YORK, May 20. To-day Judge Lacombe appointed Archer V. Pancoast and Allenson T. Enos receivers for the Pancoast Manufacturing Company. The assets of the company are said to exceed one million dollars, and its liabilities will probably be found to be greater.

SUDDEN DEATH

Of an Officer While Performing His Duties.

BOSTON, May 20. United States Customs Inspector, Edwin Patch, 74 years old, ex-representative to the Legislature and in customs service 13 years, dropped dead on Pier 6, East Boston, this morning, while performing his duties.

A TRUSTED OFFICIAL

Arrested in Boston for Embezzlement.

BOSTON, May 20. Albert D. Jacobson, one of the editors of the Jewish Chronicle, and Superintendent of the Hebrew Charitable Employment Bureau, was arrested, last night, charged with embezzlement. He confesses to having appropriated $900, which his poor countrymen had entrusted to him to send to relations abroad, but the total amount, it is said, will reach much larger figures.

SHOCKING ACCIDENT.

A Young Girl Burned to Death by her Clothes Catching Fire.

WATERBURY, Conn., May 20. Maude, the 8 years old daughter of H. L. Roberts, of Naugatuck, was burned to death under singular circumstances, last night. The child was in front of the stove when her clothing caught fire. She rushed up stairs and sought the protection of an aged woman named Mary Monroe, of Waterbury. The bed on which the latter was lying was set on fire and the child was burned to death. The Monroe woman died this afternoon from injuries received. The fire department was called out as the house was in danger, but the flames were quickly extinguished. The Roberts family was away at the time.

AN ALLEGED DEFAULTER

Surrenders to the Police.

BOSTON, May 20. Walter Paine, 3d, surrendered to the police to-day, and was admitted to bail in $10,000. He was agent and treasurer of the American Linen Company and it was alleged he falsified the books of the corporation to cover up illegal transactions. The offense was committed about the date of Chace-Hathaway defalcations and shortly after it became known, he escaped to Montreal where he has since been interested in a cotton mill.

Cases may be Dismissed.

NEW BEDFORD, Mass., May 20. It is stated from undoubted authority that the cases against Walter Paine, 3d, the embezzling treasurer of the American Linen Co., of Fall River, will probably be dismissed. No official action can be had until the June term of the Supreme Court, but steps will then be taken. The reasons for action will be the long exile of the man, 14 years, the character of the petition in his behalf presented to District Attorney Knowlton, which was signed by every person living, who suffered by Paine's embezzlement, and the advanced age of the man, which is about 70 years.

THE NATION'S GUESTS.

Government Will Pay All Bills for Their Entertainment.

WASHINGTON, May 20. The government will pay all bills incurred for the entertainment of the Duke of Veragua. This statement was made by Secretary Gresham yesterday. The Duke is a guest of the nation and as such all his needs and desires will be complied with, at the expense of the general government. As the Infanta Eulalie comes also in the capacity of the nation's guest, her entertainment will be provided by the government.

OFFICERS ELECTED

For Woman's International Congress.

CHICAGO, May 20. The International Council of the Woman's Congress, last night elected the following officers: President, Lady Aberdeen of England; Vice President, May Wright of the United States; Recording Secretary, Mme. Maria Morton, of France; Corresponding Secretary, Eva McLaren, of England; Treasurer, Baroness Alexandra Gripenberg, of Finland.

SAD ACCIDENT.

A Platform Breaks Down at the Woman's Congress.

A Dozen Women Seriously, but None Fatally Injured.

CHICAGO, May 20. A disastrous accident to-day, marred the close of the great Congress of Women. A section of flooring, 20 by 30 feet in extent, forming the entrance to Washington Hall in the Art Institute, suddenly gave way and fell to the ground, a distance of twelve feet. Seventy-five women fell with it, and the cries of thousands of women already assembled, contributed to the excitement that followed. After scores of people had come to the rescue and the nearly four score of women extricated, it was found that not over a dozen persons had been seriously injured—none of them fatally. Luckily the majority of the women composing the six dozen who fell, were strong, young or middle aged, and were soon able to take care of themselves.

A DANGEROUS MAN.

A Noted Dynamiter Arrives in New York.

NEW YORK, May 20. James McKevitt, a dynamiter, who once nearly succeeded in laying all the public buildings of Liverpool in ruins, arrived here yesterday on the steamship Gallia. He has served fifteen years in various prisons in England for his attempt. He was released from Portland prison April 3d.

EFFECTS OF A DRINK.

Police of Boston Investigating a Case of Probable Opium Poisoning.

BOSTON, May 20. The police are investigating the case of Mary Grazio, an Italian street piano grinder, who died, it is thought, from the effects of a drink of liquor given her in a Portland street saloon, where she was soliciting pennies, last night. Immediately after taking the liquor she staggered to the sidewalk, fell and never recovered consciousness. Physicians say the symptoms were similar to those of opium poisoning.

UNSEASONABLE WEATHER.

Ice Formed in Portions of Connecticut Friday Night.

ROCKSVILLE, Conn., May 20. A frost prevailed last night throughout Tolland county, and ice formed in many places.

SUNDAY OPENING.

Attorney General Olney Requested to Issue an Injunction.

WASHINGTON, May 20. Telegrams, letters and resolutions protesting against the opening of the World's Fair on Sunday, continue to pour in on Secretary Carlisle and Attorney General O'Leary. The latter is requested to get out an injunction against the fair.

Medical Societies, in Berlin, Discuss Recurrence of Cholera.

BERLIN, May 20. At a meeting of the medical societies, last evening, Prof. Virchon said the recurrence of cholera anywhere in Germany this year was improbable. The Hamburg police will prosecute the newspapers which stated that several cases of Asiatic cholera had been found in that city and the suburbs recently.

Czar of Russia Reported Ill.

BERLIN, May 20. It is reported here that the Czar of Russia is ill. It is said he is suffering from a cancer.

Pardon Refused.

LONDON, May 20. Home Secretary Asquith has refused to release James Gilbert, alias Cunningham, who in 1885 was sentenced to life imprisonment for connection with the dynamite explosions at the Parliament House. Gilbert is said to have heart disease.

Another Attempt to Assault Gladstone.

LONDON, May 20. While Gladstone was travelling from London to Chester, yesterday, a heavy missile was thrown at his compartment as the train approached Willesden. The missile struck the window of the next compartment, which was occupied by the Dean of Chester. It smashed the glass and struck the cushion a few inches from the Dean's head. No arrest was made.

Steamship Wrecked.

WHITEHEAD, N. S., May 20. The steel steamship Craigside, of London, 3,000 tons, from Matanzas for Montreal, with sugar, struck some submerged object, about nine miles southwest of here, at midnight. She immediately filled and foundered in deep water. The crew landed in their boats in safety.

BUSINESS ITEMS

ASSESSMENT PLAN SHAKY.

Maine and New Brunswick Co. was Hardly Holding its Own—The Sale Regarded as a Wise One.

[Houlton Pioneer.]

We publish elsewhere, from the Bangor *Commercial*, quite an extended account of the opportunity offered to the policy holders in the Maine & New Brunswick Insurance Company to insure in the Commercial Alliance of New York, without examination or charge for entrance fee. While we have always regarded the Maine & New Brunswick Insurance Company as good as any of the purely assessment companies, still we notice that since January 1, 1892, the company has hardly held its own—the lapses exceeding the amount of new insurance.

Now when the lapses so exceed the new insurance that assessment fails to pay death losses, of course the end is at hand. We have never regarded insurance purely on the assessment plan anything but temporary; and as the Commercial Alliance is a first-class insurance company, having, as we are informed, been examined by a special committee of the directors of the Maine & New Brunswick Company, and as the charges of the Commercial Alliance are very low and reasonable, we cannot help but regard it a wise and thoughtful move on the part of the Maine & New Brunswick Company to afford an opportunity for its policy holders, should they see fit to do so, to secure a solid and permanent insurance.

MERCHANTS NEED MONEY.

Banks Make Concessions and Relieve Their Embarrassment.

NEW YORK, May 20. The Evening Post says: It seems to be beyond a question that the merchants are now feeling an unusual need of money, and that they are making unusual demands upon the banks for loans. The banks it appears have more than the usual amount of money for investment, but they are reluctant to lend it on time. Merchants want it on time and will scarcely venture to take it on call. It would seem from this situation that a crisis awaited the mercantile community, but as interviews with representatives of prominent banks show the bank's concessions to their customers are rescuing the solid part of the business community embarrassment. The interviews show at the same time that that part of the mercantile community, which is not on a particularly solid foundation, has some reason to view the immediate future with apprehension.

"Call Back Yesterday—Bid Time Return."

The old building at the junction of York and Exchange streets having been recently demolished, we hear various items of its history from the oldest inhabitant or some of his children.

Some one has said it was once a hotel. It may have been. I am not old enough to remember what happened before the flood—Noah's—but I am quite sure it has not been a hotel since 1814, when the Sunday schools, one of the first in New England, was organized in an unfinished room, in the northwest corner of the building, and twelve simple children, full of curiosity to know what was expected of them, were seated on boards supported by blocks, and duly instructed by Mrs. McGaw, Miss Martha Allen and Eliashib Adams. Deacon Boyd was there, too, but the age was a little too fast for him, except—and that was a great exception—to offer prayer. That was safe to do anywhere.

The scene passes and Mr. Tom Bartlett and family occupy the house, the "unfinished room still remaining where the Wednesday evening conference was held." When the town was invaded by "the British," and the people were required to surrender their weapons of war, a search being made for those which might be concealed, the officers, entering Mrs. Bartlett's room, sitting room or kitchen, as the case might be, insisted on opening the door which was locked, into the "unfinished room." She, nothing daunted, made some objection, but at length said, what a pity I cannot show how the words bubbled forth from her soft, good natured lips—"Yes, yes, you may go in if you want to. You won't find many guns there—a few old Bibles and Hymn Books lying round—the sword of the Spirit."

About this search for arms—"Gideon Dutton," familiarly called "Dish Dutton," because he peddled wooden dishes, a man as good as gold, but not so wise as Solomon, did ride all the guns he could find, under the bridge. Being discovered, he was in danger of summary punishment when, Mr. John Barker, passing by, said to the soldiers, "O let him go. He is a poor crazy man." Gideon, scorning to escape by any such subterfuge replied, "Mr. Barker, I have my senses just as well as you have."

But this incident has nothing to do with the old house.

A time came when Mr. Loomis, the first settled minister in Bangor, found a home there. I hope the "unfinished room" had by this time become a parlor or the like, but am not sure. In that house Mr. Loomis was sick, nigh to death; and one cold winter's night, his people crowded from the street up to his chamber to catch his dying words and they heard him away down the stairs, as he sang, "Jesus Lover of my Soul."

But he did not die then, the crowd retired. The doctors went to rest, expecting to be called at any moment. Mr. David Hill waited near by. Aunt Sarah Harrod and another like woman remained. They said one to another, "now though he is going to die, it does seem as though we might make him more comfortable." They bathed him, they brought fresh coverings, did all that they alone, with such hands and hearts, could do, and by and by he said, "Aunt Sarah, do you think the doctors would object to my having some of Mr. Coombs' bottled cider?" And in the midnight Mr. Hill went for the restorative.

I am not sure when Miss Hayden's private school for boys and girls was in the old house—hope it was before Mr. Loomis lived there, for it was in the "unfinished room." The reading, writing, spelling went on, of course. But what embroidery we did, what painting we might have done! For Miss H. was recommended as having "few equals in that department." Who were the pupils? There was Ann Frances Carr, afterwards Mrs. Thornton McGaw, and there was Joseph Carr—just gone from us—and Catherine Hills, afterwards Mrs. John Crosby, and Hannah Jane Hills—Mrs. Waldo T. Pierce, and Mary A. Adams, etc.

Sometime Mr. Hadlock came into possession of the place. I recall nothing interesting which occurred in his days, unless it was that the good women had a prayer meeting in an upper room. He was a good man, and his wife was lovely. She was a sister of Samuel and Henry Call, whom a few remember, and many have heard of.

The top spins so fast I cannot see what is inscribed—the tin-man's shop, the plumber's headquarters, the old house torn down, the grand block rising where it stood. E. L. C.

A Lisbon Lady Drowned in a Hogshead.

Androscoggin.

Mrs. Thomas Jordan, of Lisbon, mother of Councilman Holman Jordan, of Lewiston, was eighty-five years old and lived with her daughter near the railroad depot in that town. Her daughter was absent from home on Thursday, and Mrs. Jordan, as she frequently did, went to the hogshead near the door for a small bucket of water. It is supposed that she slipped and fell, for she was found upon her daughter's return, lying with her head submerged in the hogshead and her body partly upon the ground. She was dead and it is supposed had been in the water about twenty-five minutes. The hogshead is partially sunken in the earth, making it possible to stumble and fall headforemost into it.

There are now about seventy-five boarders at the county jail. Only twenty belong in Auburn and Lewiston. The greater amount of the prisoners are tramps in for vagrancy and intoxication.

O. F. Brien, assistant to Mr. Bass, the Boston architect and engineer who planned and built the Hollingsworth and Whitney mills at Waterville, is at Mechanic Falls, and has commenced the plans for the purpose of constructing all of the Poland Paper Company's mills under one roof. A large force of workmen have been employed getting out stone, and making preparations for the work which will now be pushed to completion.

Stage Driver Strout, of Durham, has had to invoke the aid of the steam cars to assist him in carrying the mail between Auburn and Southwest Bend. The reason for this is that the Androscoggin has appropriated a part of the river road, and the water is four feet deep in some places. Mr. Strout drives down to Lisbon Falls with his team, comes up on the forenoon train and returns on the one that leaves at 5 P. M.

A freshet is threatened on the Androscoggin river. All but the largest and one of the smaller ledges which protrudes from the falls are covered with water, and the high water mark seems to be the aim of the old stream that has carried so many pumpkins, barns, logs and other of Maine's products down over the rapids and falls to the waters of the ocean.

Aroostook.

The Canadian Pacific Railway have reduced the freight on shingles two cents per thousand to Boston and all Boston points.

Henry J. Hathaway, Collector of Customs for the Aroostook district, commenced the duties of his office May 1st. He has appointed the following deputies, James Archibald, Esq., Benj. B. Feeley, of Houlton; Howard W. Safford, Blaine; Wm. T. Spear and Eugene Theriault, Fort Fairfield; Allen E. Hammond, Van Buren; Henry W. Leveque, Fort Kent.

When the Bangor & Aroostook is completed and in running order to Ashland it will open a sporting region unsurpassed in New England. In the wilderness at the head waters of the Aroostook there are lakes and streams in abundance. Portage Lake, which is within easy reach of the Ashland branch, is the first in order of a magnificent chain of lakes, which for extent, veriety of scenery, and the opportunity they afford of making a trip full of change of scene, and exciting incidents of rod and gun, are as attractive as any similar resorts in the world.

Last Saturday a young fellow named Joe Faulkner was drowned on the Big Machias while driving for McCullom. He had taken a peavy and gone down the stream to break the jam which had formed a short distance below, and with nine others got off to let the drive go by. They got on to the rear end as it passed them and rode down. They all got off again but Faulkner and as the logs rolled round he threw his peavy and fell backward into the water. One of the other men with him threw out a peavy for him to grasp but for some cause he did not avail himself of the opportunity, and sunk beneath the water and was seen no more. He was only nineteen years of age. His body had not been recovered when the drives left the lake.

The town of Monticello at a special meeting held last Saturday, voted to furnish free, to the Green Mountain Telephone Company, the poles for the line passing through the town.

Richard Smith, who lives in North Woodland, lost his house by fire, Sunday morning. The fire caught in the attic around the chimney and was discovered in season to save everything in the house. The building was entirely consumed. Insured for $1,000, says the Aroostook *Republican*.

Isaac McLellan, the oldest representative of the native poets of Maine, will be eighty-seven years old next Sunday, and his friends are to celebrate his anniversary at Greenpoint, Long Island, N. Y. He was born in Portland, May 21, 1806, and is descended on his father's side from the well-known Scotch-Irish family of McLellan.

The steamer City of Richmond, which has been lying at the Maine Central wharf, Rockland, for nearly a year, was taken to New York last week, by Capt. Dennison. A sale is expected soon.

Washington.

Calais *Times*: The announcement is made, on authority, that the construction of the Maine Shore Line railroad will not be commenced this year. Some people had entertained the belief that the road would be in full running order before haying time. But this is a world of shocks and surprises.

The citizens of Machias are going to dedicate the Porter Memorial library June 8, next, with public ceremony. To give additional attraction to the event they have expressed to the navy department their desire for the presence of the gunboat Machias, which is the first of the new naval vessels built in Maine.

Alfred Reynolds was before Justice B. Rogers, Pembroke, Wednesday, on a charge of breaking and entering the store of E. H. Sprague & Son, Monday night, and the larceny of goods therefrom, and was ordered to recognize for his appearance at the next sitting of the Supreme Judicial Court at Machias. Failing to secure bonds he was committed to jail.

The Snake and the Prairie Dogs.

From the spring of '69 to '80, as a frontiersman, I travelled over Kansas, southeast Colorado, northeast New Mexico, the Indian Territory, and northwest Texas. I have shot dogs, owls and snakes, probed their dens, and made careful observation of them, and never found any two of the three species residing in the same burrow.

The facts as I have found them are: The dogs dig the holes for home purposes, and from various causes many of these holes are deserted, some of which are afterwards occupied by snakes, others by owls, and others by spiders and other insects. Sometimes an entire village is deserted by the dogs; cause unknown; supposed to be failure of water supply or drowning out by floods. I once witnessed an unusual commotion among the dogs of a small village. Taking my gun I quietly approached to within fifty feet of the center of attraction and for a half hour watched proceedings. A rattler two feet in length was trying to get possession of a burrow, and the owners, two grown dogs, were trying to prevent it. The snake would crawl toward the dogs, coil and strike, the dogs would rush at the snake barking furiously, leaping in the air and down, and the snake would get into fighting position and the dogs would run away, yelping in terror.

Occasionally some of the neighbor dogs, all of whom were in a state of intense excitement and terror, would come to assist in the home defence; but when the snake would coil up, they would utter a succession of terrified yelps and run off to their own homes. So persistent were they that during my half-hour vigil the snake did not succeed in going more than eight feet. It had evidently been within fifteen feet of the burrow when discovered by the dogs, and the alarm given that an enemy was near, as my presence was noticed, but seemingly little feared by the dogs. I gradually approached to about thirty feet of the snake, which was within two feet of the burrow, where I shot. As my train was ready to move, I regretted that I had not time to remain a couple of days and see the outcome of the affair.

My belief is that the snake would have entered the burrow and made a feast of the puppies; that while it was so doing, the villagers would have filled the entrance with dirt so closely and firmly packed that the snake would have been imprisoned for life, a victim of his own rapacity and their vengeance. I have seen many holes that had been filled, and solidly too, the marks on the surface showing that the work had been done by the dogs. And I am fully persuaded that it was done solely to imprison and destroy a snake which had entered and despoiled a home.—*San Francisco Examiner.*

Rheumatism, Dyspepsia and Insomnia—Great Benefit From Hood's Sarsaparilla.

"I have been taking Hood's Sarsaparilla for four or five months, and am satisfied that it is a very excellent remedy. I have been troubled with rheumatism more or less for a number of years. My back and hips, and indeed my whole body at times, have been afflicted. The rheumatism has been especially severe in my right arm between the elbow and shoulder, which has been so lame that I sometimes feared

entirely. I was in this condition when I began to take Hood's Sarsaparilla, but I had not taken more than a bottle or two when I began to feel better, and when I had taken four bottles, my rheumatism has entirely left me. I have been more free from rheumatism this season than for years. Besides the rheumatism, I, like many others of sedentary habits—for I have been a minister of the Methodist Episcopal church forty years—have been troubled with dyspepsia, but while taking the medicine my

Don't it seem ridiculous to tell poor suffering humanity that "ONE" Sarsaparilla has "MORE DASH," or is "PECULIAR" when weighed against all the above inducements? What you need, if you need anything, is "The Kind That Cures."

DANA SARSAPARILLA CO.:

GENTLEMEN:—For years I have had a TERRIBLE HUMOR. For months at a time the back of my neck and stomach would be COVERED WITH SCABS and BURN TERRIBLY. I took Eight Bottles of a well-known remedy that is advertised for Skin and Blood Diseases, besides other remedies, used Soaps and Salves externally without any benefit. Then I had ITCHING PILES so bad I could not rest nights. The first bottle of

DANA'S SARSAPARILLA

did me more good than all the medicines I ever used before. I continued using it and My Humor, Stomach Sore and Piles are WELL, my ITCHING PILES are CURED. I send you my photograph wishing others may receive as much benefit from DANA'S SARSAPARILLA as I have.

I remain your friend,
MRS. ROBERT A. SPEAR.

Whig and Courier.

BY BOUTELLE BROTHERS.

All business letters should be addressed to Boutelle Brothers, and communications intended for publication should be addressed: "Editor of Whig and Courier."

MONDAY, MAY 22, 1893.

The Boston *Herald* in the course of a long editorial says there is nothing the matter with business except a lack of confidence. That appears to be about the size of it. Neither the President or his Secretary of the Treasury have manifested sufficient knowledge of the finances of the country to inspire business men with confidence.

The proposed race of 300 cowboys from Chadron, Neb., to the Nebraska Building on the Chicago Fair grounds is a method of illustrating American enterprise that ought not to meet with public approval. The distance is 700 miles and each rider is allowed only two horses for the whole distance. As the start is to be made June 25, it will be seen that it is proposed to ride a horse 350 miles during the hottest part of the year and at a gait that will most likely kill the poor beasts. There is nothing humane or attractive or suggestive of the enterprise in such a feat. It would be cruel to the last degree to encourage the undertaking in the least, and every society for the prevention of cruelty to animals ought to protest against it. It will be no celebration of the Columbus year to achieve success in such a barbarous trial of endurance and speed.

The Georgia editor who was refused an office because he referred to Mr. Cleveland as a Mugwump, on receipt of the news at his home paid his respects to the President as follows:

If Editor Myrick had known that the President could not rise above prejudice instilled into his mind against those who believed him not the most available man to nominate, and who opposed him in the interests of Democracy Editor Myrick would, in so far as he was concerned, have saved the country the mortifying spectacle of a President of the United States adopting the methods of a ward boss in settling scores with his personal opponents after the victory. If Editor Myrick had known this, some other man would have been the object lesson for Democrats to contemplate, that's all.

Experience is often a sad but very effective teacher. The editor who desires an office under this Administration will do well to remember that flattery is the road to the President's favor. They cannot heap it on any too thick as his capacity for absorbing the same is limitless.

An esteemed contemporary discussing the report, which it is inclined to doubt, that the President proposes to place all of the offices under civil service rules, says such a change would "realize the full aims of the most advanced reformers." Ever since this Administration came in old and and efficient servants of the government have been walking the plank to make room for Democrats without the slightest regard to their fitness for the positions selected. The present Comptroller of the Currency knows no more about the banking system of the country than a school boy. He was selected simply because he is a Cleveland idolater with no business experience and therefore willing to accept such ready made views as may be handed into the department. If the scope of the civil service rules is to be enlarged the change will not be made so long as any considerable number of Republicans are left in office, and will be calculated to keep Cleveland's incompetents in their positions. This is not reform. It is simply a scheme to give the friends of the most persistent office-seeker in the country to-day life positions.

The Democratic family of Ohio is not a happy one. Senator Brice has no influence at the White House, while ex-Governor Campbell is consulted about most of the appointments made in Ohio. But Brice can control the Democratic machine at home, and Campbell could not be nominated for Governor again if he wanted to be. Congressman Harter and Allen W. Thurman are another pair of Buckeye Democrats who find their best enjoyment in pulling against each other. At a meeting of the Thurman Club in Columbus last Tuesday night Harter was a guest and was invited to discuss the financial question. He took his stand against inflation, and when he had finished Allen W. Thurman jumped to his feet, denounced Harter's financial heresies, and made a free silver speech. The prospect of harmony among the Democrats of Ohio grows beautifully less as the need for it increases with President Cleveland to defeat Governor McKinley. The President will do all he can to defeat the tariff leader, but Mr. Cleveland never was very popular in Ohio. He always rides through the Buckeye State in the night time.

A Washington despatch says: Another subject which has been and for a long time to come will be a special and fruitful source of anxiety to Mr. Cleveland is that of revenue legislation, in respect to some features of which there is good reason to believe that he is at odds with a very large proportion, if not a majority, of his party. He realizes that something must be done, and yet it is hardly too much to say that he distrusts the ability of the majority in Congress to deal with the subject wisely or intelligently. That majority, as well as the Executive, is bound to make a tariff "for revenue only," but he knows that there can be know extension of the existing free list or radical reduction of existing rates of duty without such a reduction of revenue as would make it immediately necessary to restore sugar to the dutiable list, or to levy new taxes. He knows, too, that an overwhelming majority of his party in both branches of Congress favors the imposition of a tax on incomes to make good any deficiency caused by the reduction of the revenue from customs. The problem with which he and his party now have to deal with is wholly different from the one they faced when he wrote and sent to Congress his famous message of 1887. That was a mere party challenge, and the country so accepted and regarded it; now the country expects action—radical and decisive action. Is it any wonder that the prospect adds to Mr. Cleveland's burden of anxiety?

Lost Cause and Memorial Day.

A recent issue of the Richmond (Va.) *Despatch* contained the following advertisement, signed by four national and eight private banks doing business in the city:

In order that the officers of the respective banks may have an opportunity to participate in the exercises incident to the re-interment of ex-President Davis, we, the undersigned, would respectfully request parties having notes maturing on that day (May 31st) to attend to same on Tuesday, May 30th.

The true significance of this matter is pointed out by the editor of the New York *Morning Advertiser*, who is doing good work in revealing the real sentiment of the South, as follows: In other words, business is suspended on the 31st day of May that honors may be paid to the memory of that arch conspirator against human rights, Jefferson Davis, the most potent spirit in the Slaveholders' Rebellion against the Republic of Washington; and in order to do this the public is not tied that it must ignore the day set apart by Congress and a majority of the States as a National Holiday, a day upon which a loyal people may pay the tribute of patriotic affection and gratitude to the memories of the men who crushed that Rebellion and gave up their lives that free government might live.

The significance that belongs to this performance is increased when it is considered that it is the act of business men who are not, as a rule, professional politicians. If it had originated with politicians it might have been doubted whether they represented the sentiments of the people—it would have been looked upon as demagogical and comparatively unimportant.

But the Richmond bankers know full well that in issuing this notice they are acting in harmony with the feelings of the people of their city and State. They would not do such a thing if there was a generally diffused spirit of strong loyalty and devotion to the Republic existing in Virginia — business considerations alone would restrain them.

What Form of Policy is most Desirable?

That depends on circumstances. For those who can pay the larger premiums, a whole life policy, with all premiums to be paid up in ten, fifteen, twenty, or twenty five years, is the most desirable, for the burden of paying premiums is limited to a comparatively short time, the whole insurance then becomes paid up, and if afterward the insurance becomes unnecessary, it can be surrendered for a cash value proportioned to the increased premium.

STATE OF MAINE.

Penobscot ss. May 19, A.D. 1893.

This is to give notice that on the seventeenth day of May, A.D. 1893, a warrant in insolvency was issued out of the Court of Insolvency for said County of Penobscot, against the estate of Eastman T. Lord, of Charleston, in the County of Penobscot, State of Maine, adjudged to be an insolvent debtor, on petition of said debtor, which petition was filed on the eleventh day of May, A.D. 1893, to which last named date interest on claims is to be computed; that the payment of any debts and the delivery and transfer of any property belonging to said debtor, to him or for his use, and the delivery and transfer of any property by him are forbidden by law; that a meeting of the creditors of said debtor, to prove their debts and choose one or more assignees of his estate, will be held at a Court of Insolvency, to be holden at the Probate Court Room in Bangor, in said County, on the [illegible] day of June, A.D. 1893, at ten o'clock in the forenoon.

Given under my hand the date first above written.

A. M. BRAGG, Deputy Sheriff,
As Messenger of the Court of Insolvency for said County of Penobscot.

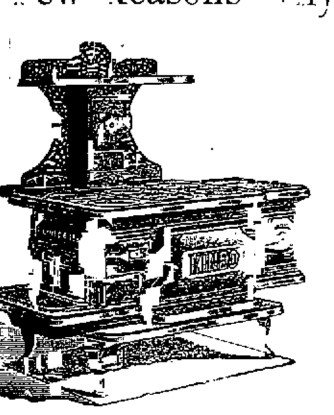
A Few Reasons Why the Sales of the



KINEO STOVES and RANGES are Constantly Increasing.

Because the people know they are the best.
Because of the merits they have, which Other Stoves have not.
Because every desirable feature to be desired is found on them.
Because quality is the true test of cheapness, and the best is the cheapest.
Because they are the richest in design and ornaments of usefulness.
Because our new Coal Grate gives the best satisfaction of any patent grate manufactured.
Because less talk is required to sell them than any other Stove or Range in the market.
Because our Stoves and Ranges are more attractive than others.

FIERCE BLAZE IN SAGINAW.

Two Hundred and Seventy-five Buildings Destroyed.

Hundreds Homeless—Loss Estimated at $900,000.

SAGINAW, Mich., May 20. Fire started at 4 o'clock this afternoon at the mill property of Sample & Camp, and spread with frightful rapidity, destroying several industrial establishments and two hundred residences

The scenes witnessed during the fire were awful and the flames were beyond the power of the pen to adequately portray Excitement was at fever heat and in many instances buildings caught fire and were destroyed before the occupants were hardly aware they were in danger and dozens of families

Saved Practically Nothing

The losses reach nearly a million and a half dollars, with probably an insurance of $700 000 Fully one thousand men employed in factories burned are thrown out of employment and hundreds of families are homeless, as about 300 buildings were burned

Latest

A close estimate places the number of buildings destroyed in yesterday's fire at 275, total loss $900,000 Total insurance about $600 000

President—Hon J R Thibaudeau, Montreal

First vice president, Col Chisholm, New York

Second vice president, D Bergen, M P, Cornwell

Secretary C Armstrong, Montreal

Directors, A F Gault and G A Greenshield, Montreal, D Davis, Ottawa, R R McLennan, M P Glengary

It is proposed to run a fast line of steamships from Gaspe to Liverpool The promoters expect to enter into close competition with the Canadian Pacific Railway Company and claims to have powerful English and American backing

VIOLENT HAIL STORM.

Windows Broken and Great Damage Done

HILLSBURG, Pa., May 20 One of the most violent hail storms ever known here occurred this evening The effect was most disastrous to life and property In the east end of Hillsburg and throughout the valley every glass on the south side of the buildings were shattered while all over both cities skylights, greenhouses, private and park conservatories were shattered and fell in ruins.

At the theatres panics were narrowly averted and several women fainted from fright. Animals are known to have been killed in Hillsburg, either by collision or by becoming entangled in the electric wires. John Downey, a driver, was fatally hurt. Michael Dunn was almost electrocuted by stepping on an electric light wire.

The money loss will be very great; various estimates places the damage above half a million dollars. On Neville Island, in the Ohio river, the damage to garden and farm products is estimated at over $160,000.

TRAGEDY IN COURT ROOM.

Lawyer Shot and Instantly Killed.

INDIANAPOLIS, Ind., May 20. At Danville, this afternoon Caleb Brown, president of the Lebanon National Gas Company, shot Samuel Wener, one of the prominent lawyers in Indiana, killing him instantly. The shooting occurred in a court room, directly in front of the judge's desk.

BOOTH AND JEFFERSON.

Progress of their Illnesses.

NEW YORK, May 20. The condition of Edwin Booth at midnight was about the same as for several days past. Joseph Jefferson is improved greatly.

CRUISER NEW YORK.

Successful Preliminary Trip Over Course.

The Official Trial Will Occur To-day.

BOSTON, May 20 The cruiser New York made an unofficial run to-day over the ocean course between Cape Ann and Cape Porpoise. The wind was light, from the northwest, and the sea was smooth. Though the Cramps are reticent as to the exact figures, it was evident that the representatives of the great shipbuilding firm were thoroughly satisfied with the performance of their latest creation

As there are many errors yet to be eliminated from to-day's calculation, such as strength and direction of currents and a slight deviation from the straight line, as the mark vessels were not in position, it is safe to say that the New York attained a speed of 20 5 knots or more, and developed at least 16,500 horse power. Again, none of the hand picked coal was used, and as there is much energy stored within its shapely lumps, it is but fair to presume that Monday's trial will show the New York to be a 20 75 knot ship, if not more

The entire distance of the run was 21 65 knots and the finish line was crossed in exactly one hour and four minutes from the time of the start Had the course steered been a perfectly straight one and the speed corrected by current observations the speed would have been 20 13 knots. As there is no doubt that several miles more than this distance were covered, a conservative estimate of the run would be 20 50 knots per hour On the official trial next Monday, many doubtful factors are to be removed, so the result will be a satisfactory one The New York did not run over the course but once, returning to her anchorage under natural draught

WASHINGTON NEWS.

Will Enforce the Chinese Law

WASHINGTON, May 20 Secretary Carlisle said to-day that he would certainly enforce the law as to the deportation of the Chinese as far as the means at his disposal would permit He intended to begin with the class of Chinese who are in the country illegally, having come in contravention of the law of 1884 After having sent this class out of the country he would then turn his attention to an other and larger class those who have failed to comply with the Geary law, as to registration Only $16,000 remains of the appropriation for the present fiscal year to carry out the law, but $50 000 will be available July 1

Naval Academy Visitor Appointed

The President has appointed ex-Governor John D Long, of Massachusetts, a member of the board of visitors to the Naval Academy, in place of Gov William McKinley, of Ohio, who is unable to serve

A Civil Service Question

Under a decision rendered to-day by Judge Bradley of the circuit court of the District of Columbia, unless it shall be reversed, employes of the government in the classified service appointed under the civil service laws cannot be dismissed without just and sufficient cause, to be established to the satisfaction of the courts Hitherto it has been supposed that the power of dismissal without assigning cause was reserved to appointing officers by the letter of the civil service law, if not by the spirit of the civil service reform

But Judge Bradley upset this supposition when he overruled to-day the demurrer of the civil service commission and the city postmaster against the petition of one Pulaski for a mandamus requiring them to reinstate him as a substitute letter carrier in the local postoffice

The decision is all the stronger because Pulaski held an appointment upon probation only and was dismissed by the postmaster under the instructions of the commission because the postmaster has omitted to notify the commission of Pulaski's appointment within the three days' time prescribed in the commission's rules

Great interest will be felt in the further progress of the case when the respondents appear before Judge Bradley next week to show cause for the petitioner's removal and against his reinstatement

Chinese Law

WORLD'S FAIR.

Sunday Question Causing Considerable Excitement.

Crowds Outside the Gates of the Park.

WORLD'S FAIR GROUNDS, May 20. The visitors to the fair to-day were favored with a foretaste of an ideal summer day Notwithstanding to-day's big crowd the attendance this week has been disappointingly light, considering the fine weather of the past three or four days The greatest attendance of the week was Tuesday, Norwegian day, when 02,000 persons passed through the gates The smallest day was Thursday, when but 27,000 persons came to see the show

The average attendance since the fair opened is about 33,000 If the turnstiles record on an average 90,000 per day for the entire period of the fair the bare running expenses of the fair will be met The concessions and side shows are productive of considerable revenue and from this source the stockholders may expect a small rate of interest on their investment

Attorney General Olney Says the Law Will be Enforced

WASHINGTON, May 20 Mr John Willis Baer, of Boston, secretary of the United Society of Christian Endeavor, had an interview with Attorney General Olney this morning in regard to the points of the law and government's relation to the World's Columbian Exposition

Mr Olney said that as all appropriations made or pertaining to the exposition were made upon the condition that it should not be open to the public on Sunday it would be the duty of the World's Columbian commission, created by Congress April 25, 1890 to make such rules or modifications of the rules of the Columbian Exposition as should require the closing of the fair on Sunday

The Attorney General said further that 15 days ago, having been led to think by press despatches and other reports that the district attorney at Chicago might be waiting for some word from him Mr Olney informed the district attorney that he expected him to act in the matter of restraining the exposition managers from opening on Sunday by enforcing the law, if their attitude at any time should require such action

The district attorney replied that he had expected to act promptly in accordance with instructions, and would advise the attorney general of any move on the part of the exposition managers that would make such a step necessary Nothing has been received from the district attorney since that time nor has any further word gone from the Attorney General to Chicago in relation to this matter

In answer to the question as to whether the President had any power in the matter, the Attorney General informed Mr Baer that the President had no especial authority in the premises, that the law was plainly stated and that the government would see that the law was enforced in case the national commission should at any time decide to open the gates on Sunday

Sunday Question

CHICAGO, May 21 The World's Fair Sunday opening question was vigorously discussed at a meeting of the trade and labor assembly to-day It was brought up by the introduction of a resolution by delegate McGuire, which declared the sympathies of the labor union in favor of Sunday opening In the discussion that followed President Linehan said "When efforts were being made to raise money for the fair promises were made to the working men of Chicago that the fair would be open Sundays Hundreds of working men in Chicago contributed to the fair stock subscriptions according to their means Their wishes should be as much consulted as any other subscribers I propose to say to the fair authorities 'We are willing to pay fifty cents each to get in o the exposition on Sundays, but if you do not let us in on those terms we will go in anyhow Let us name a day and four when we shall march to the grounds and tear down the fence if our just demands are not acceded to

Mr Pomeroy proposed a public meeting be called to discuss the question It was decided to hold a meeting on Wednesday evening, near Jackson Park, at which place action will be decided upon

Crowd Outside the Gate

CHICAGO, May 21 Tens of thousands of men and women wandered aimlessly up and down the thoroughfares outside the World's Fair grounds to-day, peering wistfully through the closed gates of the White City and murmuring regrets at their inability to gain admittance Some of the louder spoken ones called down maledictions on the powers that sealed the fair to them, but on the whole the crowd was orderly

It was by far the largest Sunday turn out since the exposition opened Transportation lines and the army of fakirs located in the vicinity of the grounds did an enormous business From early morning until dark the elevated road cable lines, steamers and suburban trains poured a continuous stream of humanity into the streets surrounding the grounds

Dozens of policemen were kept busy in preventing street blockades The pressure in a large measure was doubtless due to an ill-defined hope that the closing order might be revoked during the day The crowd had money, and not being able to spend it in the exposition turned to cheap amusements in the vicinity Hundreds of shouters yelled themselves hoarse and rendered the day hideous in their efforts to secure a share of the golden harvest As night drew near the rush for home began and for two hours every means of transportation was tested to the fullest capacity

THE NAVY

Changes Among the Officers

WASHINGTON, May 20 Secretary Herbert to-day signed orders making a number of important naval changes Admiral Gherardi is ordered to haul down his flag on the Philadelphia on the 31st inst and assume command of the Brooklyn Navy Yard On the same day Admiral Walker will lower his flag on the Chicago and go on leave of three months Admiral Benham will transfer his flag from the Newark to the San Francisco and assume command of the North Atlantic station.

Commodore Erben, on being relieved of command of New York navy yard by admiral Gherardi, will raise the flag on the Chicago and prepare to go to the European station which he will command He will sail for Europe as soon as the Chicago can be put into condition, which probably will be about the tenth of June The Newark will probably go to Europe, and the Philadelphia will go to the Pacific in place of the San Francisco, which will become the flag ship of the North Atlantic squadron No vessels or commandant have yet been selected for the South Atlantic

The Charleston will go to the Pacific and the Bennington, Concord and Yorktown will be assigned as soon as ready for sea The Baltimore will go to the Asiatic station The San Francisco, Miantonomoh, Atlanta, Kearsarge and Vesuvius are to constitute the home squadron The command of the South Atlantic station will be given to some officer now on shore duty and it is believed that Admiral Walker will be given the command of the Mare Island Navy yard when his leave expires

AMUSEMENTS

Bishop's Colored Aggregation

Bishop's Colored Aggregation again made a very favorable impression Saturday at both matinee and evening performances at The Norombega, and there was a good attendance All the members made an excellent impression and the singing by the Calliope Quartette was greatly appreciated Last evening a sacred concert was given and it well attended

The County Fair

The 'County Fair, with its wealth of scenery and mechanical effects will be produced at the Opera House this and to-morrow evenings

The business done by the County Fair is among the largest in the history of the stage It is essentially and American piece Its author Mr Charles Barnard has given the stage as faithful and honest a picture of American manners, in certain sphere of life as could be painted Miss Bates performance of Abigail Prue is sincere and unsophisticated and is admirably humorous and attractive It is not to be wondered at, that Mr Neil Burgess has made in the six years of its production over $500 000 For this season there will be five horses used in the race scene, and other novelties added that have not been seen here

Base Ball Notes

The Maine State College team goes to St John Tuesday and will play the St John Amateur Athletic team two games forenoon and afternoon, on Wednesday the Queen's birthday The Colbys will soon make a trip to the Provinces and play the St John team and possibly other nines The St John team is made up this year of local players and they have steadily increased in skill in the past few years owing to the coaching of United States players and games with teams from this country

As an example of the progress in the game in the Provinces, the St John team 7 years ago was beaten 23 to 1 by the Bangor team of local players in this city, in a return game at St. John later in the summer, the score was 17 to 6 and each year since then has not only been growing less, but the Provincials have even won quite a number of games from some professionals and college teams They have been materially helped by Maine players and players from other parts of the United States, but their play has greatly improved and they can muster some very fair local nines

The M S. C's will return from St John Thursday and Friday will play a regular game with Bates in this city The postponed M. S C-Colby game may take place on May 30th and the postponed M. S. C.-Bowdoin game will probably occur either on June 2nd or 4th in this city The M. S. C's will play a return game with the Maine Central Institute team at Pittsfield next Saturday and hope to turn the tables on them.

Bowdoin dropped a game to Colby Saturday in an unexpected manner, over-confidence doubtless being the cause as the team has had a most easy time of it thus far in winning games. The need of solid work during the rest of the series will be readily obvious after the experience of Saturday. The following is the present standing of the teams:

	Won	Lost	Per cent
Bowdoin	4	1	800
Bates	2	2	.500
Colby	2	3	400
M. S. C.	0	3	.000

The Maine State College freshmen went to Hampden Saturday and played the academy team. The freshmen won by a score of 23 to 12.

The Y. M. C. A. and East Maine Conference Seminary nines will play at Maplewood next Saturday afternoon.

TRACK AND FIELD ATHLETICS.

Bangor High School vs. Young Men's Christian Association at Maplewood Saturday Afternoon.

The contest in track and field athletics between the Bangor High School and Young Men's Christian Association teams at Maplewood Saturday afternoon was a success and not only showed what the athletes are capable of doing but gave interesting entertainment to the fair sized number of spectators present

The contest was arranged for the purpose of selecting the team from the High School to represent the school at the meet of the Maine Inter Scholastic Amateur Athletic Association on June 10th at Augusta and the entries of the Y M C A athletes put all on their mettle The weather was excellent and the track in very fair condition

That the contestants did good work is shown by the fact that over half of the records made last year at the Maine Inter Scholastic meet were broken Lord deserves special mention for winning three events while Riggs in the runs Barker in the jumps and Veazie in the bicycle race made good time

The 100 yards dash had for starters Riggs Lord Flynn and McGuire It was won by Riggs in 10 4 5 seconds with Lord close behind McGuire third and Flynn fourth The Maine Inter Scholastic record of last year was 11 second

Pettee Godfrey Riggs and Davis participated in the shot put and [illegible] with a put of [illegible] feet and [illegible] inches [illegible] M I S A A record [illegible] feet

Veazie Cummings and Hunt were in the one mile bicycle race which was captured by Veazie in the good time of [illegible] second

Barker Bragg Lawrence Davis and Flynn contested the running broad [illegible] and Barker won with [illegible] feet and inches [illegible] M I S A A record was [illegible] feet

Lord Riggs and McGuire [illegible] yard dash and Lord [illegible] time of [illegible] seconds with McGuire second and Riggs third The M I S A A record was [illegible] second

[illegible]ATISM

People who have this disagreeable malady need no words of description. They know too well the pains and aches, or the stiff and swelled joints, or the lameness and feverishness. Rheumatism is caused by an acid in the blood. It can be cured, and should be before reaching the worst stages. Some things *help* rheumatism, but there is only one way to CURE it.

Doctor your stomach and blood.

Use Dr. Baker's Grape Cure.

No medicine ever discovered is so certain. Grapes are always pleasant to the stomach and this peculiar extract of the fruit, combined with certain herbs, is a magnificent medicine. One pleasant teaspoonful a dose. A dollar bottle contains nearly a month's supply. Patiently use a few bottles of GRAPE CURE and your rheumatics will surely pass away. The blood will become pure and free from the acid. At the same time comfort and rest will come to entire system as a good stomach medicine improves the general health. You will feel better all over. We warrant this or will forfeit $100.00, for rheumatism is one of the complaints in which this splendid medicine has great success. Your DRUGGIST has it or can GET it for you. Or try other stores. Price $1.00

BREWER LOCALS.

Miss Josie Farrington, of Holden, was in the city Saturday.

Capt. F. G. Arey returned yesterday from a short trip to Sorrento.

Mr. J. D. Hopkins, of Mount Desert Ferry, has been in the city for a few days.

Mr. George McKay has been having a nice well sunk at his residence on Brimmer street.

Mr. A. H. DeHaseth, of the Maine State College at Orono, spent Saturday and Sunday in the city.

Pomegranate trees are beginning to blossom. They are always the first of the fruit trees to do this.

Mr. M. E. Maling is improving from his attack of rheumatism and yesterday was able to about the house.

The Williams' house, on Holyoke street, has been receiving an improvement in the form of a new coat of paint.

Miss Martha A. Skinner, of Eden, who has been visiting in the city for a time, left Saturday for Hancock, for a visit there.

Mr. Geo. McMahon has had the grounds about his fine new residence, on State street, nicely graded, and the appearance of the place is greatly improved thereby.

Steamboat Inspectors Pollister and Merritt were in the city Saturday and inspected some of the new boats that have been built at Barbour's yard and also the Welcome.

The High School base ball team of last year is anxious to arrange a game for Memorial Day. The boys have not had a game this year, as yet, but would doubtless make a good showing.

The ferry line is now in complete running order for the season, all the slips and floats being in position, etc. Mr. H. J. Leach and Messrs. William and Charles Higgins, now form the "crew" of the Bon Ton.

Hon. Frank Jones and party, of Portsmouth, were in the city yesterday, guests of Capt. and Mrs. F. G. Arey, at their home on Wilson street. They left in Mr. Jones' private car Sorrento, on last evening's train, for Portsmouth, N. H.

The new steamer Islesford was inspected Saturday and will leave to-day for Cranberry Isle, where she will soon enter her service. Capt. Haldock, one of her owners and her commander, and his son will take the trim little boat down.

Mr. B. E. Farrington, of this city, has been engaged to fill the tenor position in the quartette, at Grace church, Bangor, and began his duties yesterday. Mr. Farrington has a pleasing voice, much ability and good training, and will doubtless meet with gratifying success.

A slight shower came yesterday morning and laid the dust so that, with the fine pleasant weather, yesterday was an excellent day for a ride, and many were out, taking advantage of the opportunity. The electric cars were largely patronized during the day by pleasure riders.

The mud, which last week's rainy weather made a rather thick deposit of on the country roads, is now well dried and the roads are in fairly good condition again, although there are bad places, occasionally. About all of the rains which should have come in April have come this year in May, and as a result we have had muddy roads later than usual.

An open car was put in service on the electric railroad, yesterday, for the first time this season, and was much appreciated by the patrons of the line. This year it was not necessary to bring an open car over from Bangor, as in years past, as one was kept in the car house, at South Brewer, during the winter. By this means the Brewer line got one earlier than usual.

The number of children, who, during the past few weeks, have been digging greens to sell, has been wonderful. In the mornings or during the latter portion of the afternoons, a walk on almost any street would bring to view several small folks with pails or baskets partly full of dandelion greens and how they all manage to sell them is a mystery. Many of the children have, however, laid by a snug little sum of pocket money, to spend on Memorial Day and Fourth of July.

Not much will be seen of the farmers for a few weeks now. They have now got a chance to do their spring planting and they will improve it to such an extent that during the time the work is going on their visits to the city will be few and far between, made only when necessary. Planting has been retarded this year by the unfavorable weather conditions and the farmers are now in a hurry to get the seed into ground. Many have sowed some but a good portion of the work yet remains to be done.

A glorified bread pudding that has a right to be exempt from the contempt given most of its kind is made from one pint of bread crumbs to a quart of milk. Soak the crumbs in one vessel, in another beat the yolks of four eggs, adding gradually a cupful of white sugar and the grated yellow rind of a lemon. Stir the bread and milk into this mixture and beat until smooth and light. Bake in a moderate oven and spread over the top a meringue made from the beaten whites of two eggs and four ounces of sugar. A bit of currant jelly served with this pudding adds to its flavor and appearance. Cake crumbs may be used in the same way, using less sugar and eggs, but a better way to use them is in a fruit pudding. One of the best of these is made with figs. Sort and chop half a pound of them very fine and mix with them two medium tablespoonfuls of butter, two-thirds of a cupful of granulated sugar and two well beaten eggs. Add a cupful of sweet milk and one-quarter of a cupful of cake crumbs; mix thoroughly and boil in a pudding mold three hours. Serve with wine or lemon sauce.

If you can paint a pansy, a wild rose, or any other large single flower, you can probably make a charming arrangement in which to keep your engagement cards or cards of invitation for the week. Paint as many flowers as there are days in the week, either painting first and cutting the flowers out afterwards, or paint them after cutting out. Make the flowers their natural shape, enlarging them to three and one-half or four inches across. Use water-color paper, and arrange the flowers one below the other in a line on a piece of the paper, or on a strip of Bristol board. Below the centre of each flower make two slits as far as possible apart, and through these pass a band of ribbon the color of the flower. Make similar slits in the piece laid at the back of the flowers and carry the ribbon through them. Gum the ends to the foundation. This makes on each flower a band into which cards can be slipped. On the band of ribbon letter the names of the days of the week. Hang on the wall with a bow of ribbon that matches the flower.

TRUSTS AND COMBINATIONS

Are unpopular. But there is one form of trust against which no one has anything to say. That is the trust which the public reposes in Hood's Sarsaparilla, and the best of it is, the trust is fully justified by the merit of the medicine. For, remember, HOOD'S Sarsaparilla CURES.

Hood's Pills are purely vegetable, and do not purge, pain or gripe. Sold by all druggists.

I have had catarrh for twenty years, and used all kinds of remedies without relief. Mr. Smith, druggist, of Little Falls, recommended Ely's Cream Balm. The effect of the first application was magical, it allayed the inflammation, and the next morning my head was as clear as a bell. I am convinced its use will effect a permanent cure. It is soothing and pleasant, and I strongly urge its use by all sufferers.—Geo. Terry, Little Falls, N. Y.

A FORTUNE IN A TRUNK.

Over $51,000 Found in Lens-Grinder Walter's Home.

When Frederick Walter, the old lens-grinder, was found dead at his home, 703 Thompson street, on Friday last, and his demented wife crouching at his side said they had no money and that her husband's body would have to be consigned to the ash barrel, there were several people who believed the couple were poor. But there were others who thought they were rich and when Coroner Deputy Wolff discovered $51,566 in cash, bonds and mortgages, those who had the latter opinion said: "I told you so."

The accumulation of forty years' steady work was found in a trunk in the old man's workrooms. His wife cannot enjoy it because she is under restraint in the Insane Department of the Philadelphia Hospital and the next of kin lives in Hesse-Darmstadt, Germany.

The coroner's jury decided that Walter's death was due to heart disease. The police have taken charge of his house and effects and if the case of Mary Maggi, who lived on Eighth street, near Thompson, who is also at the Philadelphia Hospital, is a precedent, the Board of Charities will take care of the property.

Mr. Wolff, with two policemen, searched the Walter house yesterday and in an old trunk in the third-story front room they found certificates of deposit of Pennsylvania R. R. stock amounting to $10,000; first preferred Reading bonds valued at $15,000, and other stocks, bonds and mortgages, aggregating $44,500. A bank book showing cash deposits of $7,000 in the Fidelity Trust & Safe Deposit Company and $66 in cash, swelling the sum to $51,566, was also found.

In addition, valuable instruments and tools were discovered. The old man's library contained standard German, French and Latin works which cost a pot of money, and the grinding apparatus used in his work is also valuable.

The old man had enough orders ahead for work to keep him comfortably for years, but despite his wealth the police say that his home was not kept tidy.

The Walters have no relatives in this country, but the Coroner's office is in possession of papers and letters by which it is thought the demented woman's family in London, or her husband's relatives in Germany may be found. Miss Zentmeyer, 1714 Girard avenue, last night, said she had heard her father speak of the old lens-grinder's buying the railroad bonds twenty years ago. The story that Mrs. Walter went insane over the loss of her daughter is not true, because she never had any children. Miss Zentmeyer says that longing for her English home was the cause, and she had been in a sad condition for years and was always tenderly cared for by the husband, who rarely left his wife.

Snow Storage.

Countries that have inadvisedly allowed their forest lands to be denuded eventually come to the conclusion that such recklessness involves most serious penalties. This appears to be the case in certain parts of Russia, where severe droughts cause great distress and injury. These droughts are ascribed to the gradual depreciation of the country along the principal rivers, and to the removal of obstacles in the river beds. Both these factors combine in causing the rain-water and melted snow to pass off more rapidly, and the low water level of the rivers therefore become abnormally and permanently low.

To remedy this ponds are to be dug or built up in the courses from which the rivers are fed, and on the plains long banks are to be raised, against which snowdrifts will be formed. The snow thus accumulated will melt more slowly than the thinner masses elsewhere, and will form a valuable supplement to the water supply at the period of the year when the droughts have hitherto obtained. This is simply a wholesale adaptation of a practice that has long been attributed to the more provident Russian peasants, who are in the habit of using plank walls to intercept the snow. The banks thus formed are said to frequently serve as the family water supply up to the month of August.—Nevada News.

USE LEON'S SARSAPARILLA,
"THE KIND THAT NEVER FAILS."

TOO LATE.

Perhaps Tennyson has written nothing which appeals to the hearts of all who read his poems more than the lyric of "Too Late." The burden of the sad refrain comes home with telling force to the hearts of those who have lost friends by that dread disease—consumption. They realize, "too late," the result of neglect. They feel that the dear one might have been saved if they had heeded the warning of the hacking cough, the pallid cheek, and weakening system. They feel this all the more keenly because they see others being rescued from the grasp of the destroyer, and they think what is saving others might have saved the r loved one. When the first signal of danger is seen, take steps to avert the catastrophe. Be wise in time. Dr. Pierce's Golden Medical Discovery will drive away consumption. Do not wait until too late before putting its wonderful efficacy to the test. It succeeds where other remedies fail.

The fine arts building has 7,885 lineal feet, or 145,852 square feet, of wall space. There is also the anthropological building, which covers 156,000 square feet of space; in all, the buildings mentioned cover 6,693,000 feet of space.

Upon payment of one admission fee the visitor may enter these buildings at will, and see the classified exhibits which comprise the World's Fair.

"*Dear Sister*,

"They charge you with being restless, irritable, excitable, and exacting.

"They don't know the horror that oppresses you.

"Every hour pains run rampant through your body. You suffer secretly as long as you can, then go all to pieces and 'don't care' what happens.

"The iron grip of female disease is upon you.

"Dear sister, *Lydia E. Pinkham's Vegetable Compound* has cured thousands like you.

"It has cured me, and I want to tell everybody.

"It kills the pain. No more backache, no more 'bearing-down,' no more restless days and sleepless nights. Oh! what a blessing! take it and be well! it's a sin to hesitate."—*Mrs. P. A. Quiett, North Hamlin, N. J.*

House for Sale.

I now offer for sale, possession to be given on or about May 1st, the residence of the late Geo. A. Thatcher, No. 3 Adams street. This residence is conveniently located, near to the street railway, and within ten minutes walk of the post-office. The house is well built, square, having four large rooms on the first floor; four large chambers and bath room on the second, and three finished chambers in the attic. The L contains kitchen, wash room, and two chambers, with wood room and large stable attached. There is also a carriage house on the lot, detached. The lot is 125 feet on the street and 100 feet deep, with convenient driveway to stable and a fine garden. Parties intending to move into the city are particularly requested to examine the property. For further particulars inquire by letter or otherwise of B. B. THATCHER, 68 Exchange St.

Wound up —the man or woman who's "rundown." Dr. Pierce's Golden Medical Discovery sets the wheels going. It starts the torpid liver into healthful action, purifies and enriches the blood, cleanses, repairs, and strengthens the system, and restores health and vigor. As an appetizing, restorative tonic, it sets at work all the processes of digestion and nutrition, and builds up flesh and strength.

For all scrofulous humors and blood-taints, and even Consumption (or Lung-scrofula), if taken in time, it's a positive remedy.

Unlike the sarsaparillas, which claim to be good for the blood in March, April, and May, "Golden Medical Discovery" works equally well at all seasons.

Unlike other blood-purifiers, too, it's *guaranteed* to benefit or cure, in every case, or your money is returned.

On these terms, it's the *cheapest*. You pay only for the *good* you get. But it's the *best*—or it couldn't be sold so.
